Mary Smith motion to approve the proposed bylaws changes. Gary Denu second. Motion carried unanimously by roll call vote.

Facilities

Leslie Bednar reported an overview of the results of a study from the Laboratory of Applied Spatial Analysis (LASA) regarding the optimal location of all system hubs for delivery services. The study did not include the boundaries between RAILS and IHLS and concluded a current RAILS hub location would be the choice for exchanging items. Greg McCormick reported that the study is a great tool and will need to be looked at more closely. The study only took into consideration delivery data and did not include the other services or buildings that are owned and other factors which may be important to the final decision of library system building location. RAILS and IHLS will have separate contracts with the

University of Illinois, as opposed to IHLS being a subcontractor for RAILS as they are currently. There will be more discussions and ongoing conversations regarding this subject.

Sara Zumwalt reported the contract expires in June this year and the goal is to bring a new contract to the board for review in March.
