RE: Surplus List

Background

As part of the establishment of the surplus policy, we are presenting the list of vehicles available for sale with proposed minimum bids requiring board approval. The minimum bid values were calculated at 75% of Kelley Blue Book private sale in good condition. The exceptions are vehicle licenses U30209 and U30840, which are listed in fair condition due to the need for an exhaust system repair and an engine replacement, respectively. Kelley Blue Book does not provide values for cars in poor condition.

The vehicles will be listed on [32Auctions](#) with the minimum bid to our member libraries, other library systems, and the Illinois State Library. The vehicles will be sold to the highest bidder. If no bids are received, the vehicle(s) will be consigned to Enterprise for sale on our behalf. Notice of the vehicles’ availability for purchase and the sale location will be posted on system property along with the date and terms of proposed sale once a week for two successive weeks.

Recommendation

At their meeting today, the Finance Committee moved the list above to the Executive Committee for consideration and review. Surplused fleet vehicles on the list are included with the minimum bid along with the proposed terms of the sale. The list of vehicles will need final approval by the board at their meeting May 25.

Thank you, and please let me know if you have any comments or questions.
