

Membership Considerations

Membership Considerations

June 2018

A school district has made formal application for system membership. It is the Anna-Jonesboro Community High School District #81, located in Union County

This district was suspended from System membership in the spring of 2014. I was contacted by the district Director of Curriculum and Instruction about revisiting system membership and a site visit was conducted on May 2nd. The library is open approximately 20 hours a week and the collection is being reorganized and entered into an online catalog. The staff person is enthusiastic.

An application was submitted and reviewed by the Policy and Membership Committee at their June meeting. Their vote was to move the application forward for full board approval.
