Attached, please find our second budget document for your review and consideration: the FY2024 General, Cataloging Maintenance Center, iLEAD Library Trustee Training, OCLC Billing, Capital Projects, and SHARE funds budgets. As per direction from the Illinois State Library, we provide a budget narrative in addition to the traditional budget format. We hope the combined information allows a more complete picture of our financial plans as they relate to our operations and member services.

We have changed very little since this document was shared with committees and the board in April. The changes we have made are as follows:

- Updated the Other Professional and Support Staff budget amounts to reflect the classifications of re-aligned positions.
- Updated the IMRF budget amount to include the calendar year 2024 newly released preliminary rates.

IMAGINING TOMORROW ~ DELIVERING POSSIBILITIES TODAY!

- Updated the Grant Administration fee to reflect the adjustment to the IMRF rate changes.

iLEAD Library Trustee

- Updated the IMRF calendar year 2024 newly released preliminary rates.
- Updated the Grant Administration fee to reflect the adjustment to the IMRF rate changes.

- Updated the IMRF calendar year 2024 newly released preliminary rates.
- Updated the Computer, Software, and Supplies budget amount to include the additional costs of the extended server warranties.

The General and Capital budgets are approved by the board and the Illinois State Library. The SHARE (proprietary) budget is reviewed by the SHARE Executive Council and forwarded to the IHLS Board with their recommendations. The IHLS Board approves the General, Capital, and SHARE budgets. The Cataloging Maintenance Center, iLEAD Library Trustee Training, and OCLC budgets (or special revenue budgets) are approved by the Illinois State Library.

The budgets and narratives were posted on our website following the April 25 board meeting for member feedback. Below you will find a summary of the feedback that we have received to date.

In May, there are several opportunities for discussion and review of the proposed FY2024 budgets:

- May 15: Finance Committee Meeting
- May 16: Executive Committee Meeting
- May 23: Board Meeting (final approval)

Thank you for your consideration.

The budget again this year has an approximate deficit of 1.5 million dollars. There are many areas in which the budget should be decreased in order to offset this huge deficit. There are more positions being requested to be added in the budget. The organization has not taken away any positions. SHAREs budget has risen by \$50,000. Yet at this point libraries are not being offered ASPEN to all members without a fee, thus limiting the amount of libraries that will be able to afford the service.

The operational plan has included more items this year to benefit members but many of the plans are internal and do not appear to benefit members. Members need to be included in creating this plan, so it is member driven.

Message from IHLS Open Town Hall Admin

Thank you for reviewing the FY2024 Draft Budget and Operational Plan. While some of the budgets are in a deficit, these budgeted amounts are intended to be "no more than" amounts, meaning that the budgeted amounts are the highest anticipated amount of the expenditures. This is visible in the Historical Budget vs. Actual memo presented to IHLS Board of Directors at their April 2023 meeting, that IHLS has historically ended well under the budgeted Total Revenue Over (Under) Expenditures. This has been the case even as, throughout its existence, IHLS has not received full funding based on the Illinois statute for System Area and Per Capita funding.

Still, while we acknowledge that a negative budget is not ideal, we must also recognize that it is important to ensure that IHLS can provide all the necessary services to our member libraries and the communities they serve. For this reason, two additional IHLS staff positions were included in the FY2024 budget to begin in the second half of FY2024. Both positions have been added because of the support they will offer to our members. One is a data analyst to aid IHLS and our members to better advocate for additional financial support and demonstrate an agency's relevance in their respective communities. The second position is an IT programmer assistant to support our current web developer on projects such as the IHLS delivery iPad app and websites. These new positions will significantly enhance our ability to provide excellent service to our members.

Moreover, the proposed budget was created with the knowledge that both the SHARE and General Fund have fund balances to absorb these deficits at this time. The Capital Projects Fund and the SHARE Reserve Fund budgets make up \$900,969 of the \$1.5M deficit you referenced. These budgets contain fund balances that have been accumulating over a decade for the purpose of the expenses that are included in the budget. Many of our member libraries also reserve funds for a specific purpose to be utilized at a later time. Unfortunately, budgets are presented as future revenues and expenditures only and are unable to demonstrate an accumulated fund balance that these currently have. As a result, the proposed budget seems to show a deficit that our funds themselves will not reflect.

In FY2024 we propose an increase of \$50,000 to the IHLS General Fund contribution to SHARE. This is consistent with approximately 9% of the total SAPG allocation. This contributes to SHARE's annual revenues and the utilization of the funds is determined by an active and involved SHARE Governance structure responsible to the SHARE membership. Governance is currently evaluating fee structures for the implementation of the Aspen discovery layer.

The IHLS Operational Plan is arranged according to grant guidelines supplied by the Illinois State Library. We also include reference to specific portions of ILAC 3030.215 (Standards for Core Services to Members) in the Operational Plan. IL 3030.215a) states a library system "shall develop an annual operational plan with input from members that addresses specified standards for core services", and "ensure that all system members have opportunities for input into or to comment on planning and evaluation activities, such as system plans of service, plans of cooperation, long-range plans, and program designs, including budgetary information, before plans are finally adopted." IHLS posts its draft budgets and operation in late April each year following the board meeting. We share input with several committees and the board in May the Budget and Operational Plan are finalized and adopted at the IHLS May board meeting.

Some of the points that were addressed that I really liked were: communication with member libraries; providing HR support, addressing frontline questions about nonresident law; DNS support; metadata training; creating a mobile memory lab; and creating a mobile Library of Things for libraries to borrow. As the director of a small public library with no website, I'd also love information on things to consider concerning obtaining a website and how that process works.

Message from IHLS Open Town Hall Admin

Thank you for reviewing our draft FY2024 budget and operational plan. We are pleased that some of our initiatives will make a difference to your library and patrons.

Regarding your request for information regarding a website, please reach out directly to Troy Brown, our IT Director. You can connect with him by email (tbrown@illinoisheartland.org (<mailto:tbrown@illinoisheartland.org>)) or phone (618-467-8740). Troy is happy to review the different options for a library website that will meet the needs of your small public library.

In the Operational Plan, under Delivery Services, Quantify the impact of the delivery service, planned activities include "Purchase vehicles as they become available to replace vehicles IHLS has considered surplus" - do you no longer contract with Enterprise for vehicles?

Under Resource Sharing > SHARE, it states, "Maintain a certification program for member library staff, to provide a high level of database accuracy and library efficiency" - what is this? It also states, "Promote equity among members, by evaluating SHARE policies, procedures, and decision-making processes to make sure that they are fair; support equity initiatives of members, especially for those that are addressing underserved and marginalized communities" I hope that this includes not holding larger libraries back and allowing options for all sizes of libraries.

Under Membership > Continuing Education, might there be a way to ensure an opportunity for libraries across the state to benefit from the CE offered by both multi- type library systems? Can IHLS members attend RAILS CE that is currently limited to RAILS members only and vice-versa?

> Grants, might there be an opportunity for members to contact the grants staff for research regarding grants for specific needs?

Message from IHLS Open Town Hall Admin

Thank you for reviewing our draft FY2024 budget and operational plan. We appreciate the opportunity to provide more detail regarding our member services.

Effective FY2023 IHLS no longer contracts with Enterprise for new vehicles and is purchasing vehicles off the state contract when available.

This is part of a larger EDIA effort that have broad implications for both patrons and member libraries. We are very aware of the current climate where libraries have become an increased target for those seeking to deny individuals the right to high-quality information, so we have updated collection development policies so that they are clear and transparent, with specific procedures in place. We are also utilizing available tools to review and maintain the diversity of our digital collections, with an emphasis on representation. We also support member libraries that want to do more in this space, so that Illinois libraries are for everyone in our communities.

That also means that our fee scales are transparent and fair. We are proud that we can make high-quality technology accessible for every library in southern and central Illinois, promoting equity of access in all communities, no matter their library's population size or annual budget. We strive to make our committee volunteers representative of our membership and our governance has been set up so that each library agency has an equal say on member policies.

Our SHARE committee volunteers work very hard to make sure that we meet the needs of all our members, from the smallest, rural library to the larger, more urban systems. This specifically means that we try to offer core services, like the Polaris integrated library system, the cloudLibrary digital collection, and the SHARE Mobile Library App at a price point that is equitable for everyone, using economies of scale and the collective bargaining power of our group.

For those libraries that want additional tools, we also support other types of services that would be of value to our members, but not necessarily a need for everyone, like McNaughton Book Leasing for SHARE, Stack Maps, and Patron Point. We also strive to stay abreast of new innovations in the library marketplace and offer technical support for any third-party integrations that our members want and need.

IHLS is excited to be working with a CE coordinator and conversations regarding collaboration between the systems might well be in the equation as we move forward.

Individual library grants consulting is not currently part of the contract with the independent grant consultant.

IHLS Open Town Hall is not a certified voting system or ballot box. As with any public comment process, participation in IHLS Open Town Hall is voluntary. The statements in this record are not necessarily representative of the whole population, nor do they reflect the opinions of any government agency or elected officials.

Illinois Heartland Library System

Fiscal Year 2024 Budget Narrative

July 1, 2023 - June 30, 2024

FY2024 Budget Narrative

Illinois Heartland Library System has changed and matured in the last 12 fiscal years. As we enter our 13th year as a library support organization, we continue to focus on the core services of resource sharing, delivery, and library automation. We rely on appreciative inquiry to improve our services and use innovation as an enhancement. Additional areas of focus for FY2024 will again support our 500+ multitype libraries in the areas of advocacy and continuing education.

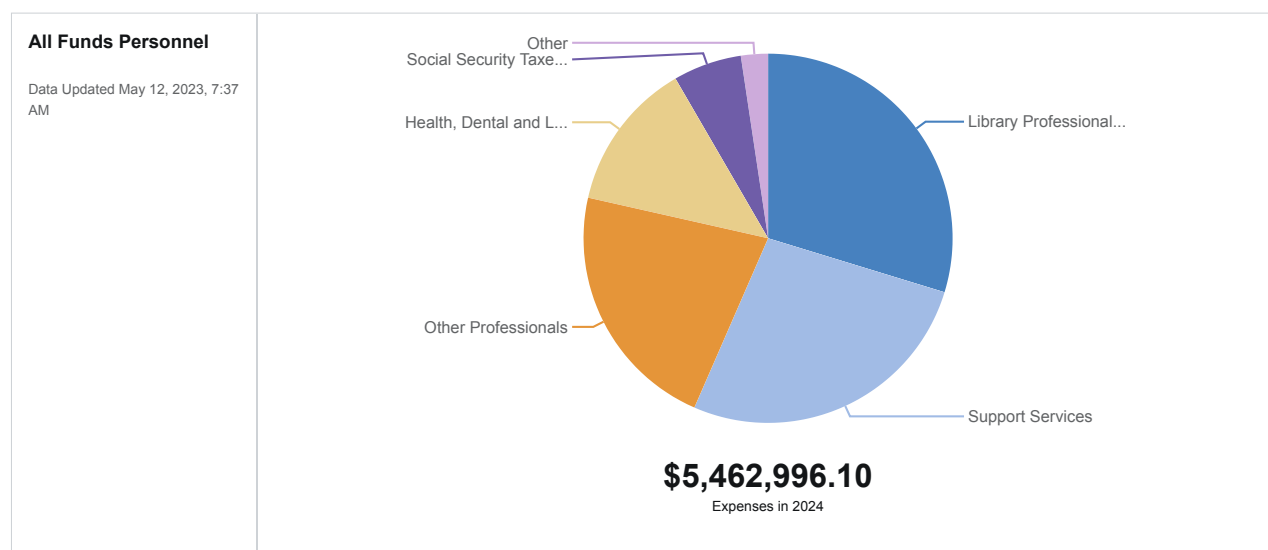

The proposed FY2024 budgets were developed to align with the planned activities in our operational plan. These activities support the Illinois statutory priorities of library administration, resource sharing, bibliographic access, consulting and continuing education, and delivery. The major planned activities include:

- Increasing outreach to school libraries and public library trustees, including the development, launch, and promotion of a trustee training program using funds from the iLEAD Library Trustee Training grant through the Illinois State Library.
- Enhancing services offered to member libraries through E-Resources, [Aspen Discovery Layer](#), [McNaughton Books Subscription](#), and the [Solus](#) app.

- In-person travel to ensure staff will receive necessary support for site visits, networking opportunities, and continuing education. Staff are better equipped to build expertise in different areas of librarianship, enhancing their training skills, building and sustaining professional relationships, and keeping current with library marketplace trends.

- Grants Consultant to explore funding options for additional member services.
- Investigating the benefits and cost of an [Automatic Material Handler \(AMH\) system](#) through the Request for Proposal (RFP) process with guidance of a consultant.

General Fund Budget Narrative

The General fund is mainly supported by the System Area and Per Capita Grant through the Illinois State Library and the Secretary of State. The grant supports the Library System's statutory priorities of library administration, resource sharing, bibliographic access, consulting and continuing education, and delivery to our member libraries. The budget has a projected deficit of \$506,704, which will be covered by the operating fund cash balance. The operating fund cash balance of \$5,580,334.71 as of April 30, 2023, is derived from the accumulation of previous years' revenue over expenditures balances.

To help reduce the impact of increasing expenditures, management reduced expenses in the following categories: Building and Grounds, Vehicle Expense, Travel, Meetings, Continuing Education for Staff and Board Members, and Telephone and Telecommunications.

The largest factors for the deficit this fiscal year include Personnel, Conferences & Continuing Education for Members, Professional Services, Professional Membership Dues, and Inter-Company Transfers.

Revenues

The General fund projected revenues of \$4,369,728 are mainly comprised of the System Area and Per Capita Grant (SAPG) of \$3,919,852 and the state-wide Illinois Library Delivery Services (ILDS) of \$262,823.
