TO: IHLS Executive Committee  
FROM: Leslie Bednar  
DATE: May 11, 2023  
RE: FY2024 Draft Operational Plan

The final draft of the FY2024 Operational Plan in your committee packet has had a few grammatical changes and no substantive adjustments since the version we shared with the board in April. We recognize it is a very aggressive plan and acknowledge all projects may not be completed as stated in FY2024.

At the April 25, 2023 board meeting there was a question about IHLS staffing totals. The tables below illustrate IHLS staff in the FY2023 and FY2024 budgets and operational plans.

### FY2023 IHLS Staff

(included in FY2023 budget)

employee type	number	employee type	number
upper management (leadership)*	7	upper management (leadership)	7
middle management (supervisors)	5	middle management (supervisors)	5
salaried professionals (not management)	25	salaried professionals (not management)**	29
hourly staff	59	hourly staff	57
<b>total staff</b>	<b>96</b>	<b>total staff</b>	<b>98</b>

### FY2024 IHLS Staff

(included in FY2024 budget)

\*Delivery and Facilities Director position is currently vacant

\*\*Includes two proposed full-time positions that would start January 2024 (data analyst and web programmer assistant). Also assumes two hourly positions will move to a salaried professional after the job description is evaluated by HRSource.

The operational plan is approved by the board and the Illinois State Library. The Cataloging Maintenance Center, OCLC, and Trustee Training operational plans are approved by the Illinois State Library.

In May, there are several opportunities for board discussion and review of the proposed FY2024 Operational Plan:

- May 11: Policy and Membership Committee Meeting
- May 16: Executive Committee Meeting
- May 23: Board Meeting (final approval)

Thank you for your feedback and consideration.

IMAGINING TOMORROW ~ DELIVERING POSSIBILITIES TODAY!

---

The Illinois Heartland Library System (IHLS) is guided by our operational plan which is a primary component of the annual System Area and Per Capita Grant (SAPG). We initiate the draft each January by evaluating progress on the current year's plan. This review informs our work in the second half of the fiscal year and helps us determine which projects and goals will carry forward to the new fiscal year.

As we project for FY2024, our 13<sup>th</sup> year as a large regional library system, we are cognizant of the outlook expressed by Illinois' new Secretary of State Alexi Giannoulias. Our priority projects for FY2024 reflect the aspirations expressed in Secretary Giannoulias' [Transition Report on Library Enhancements](#) and cross-departmental planning:

- iLEAD (leadership, empowerment, accessibility, and development) Trustee Training Portal development, launch, and promotion.
- Diversity Equity and Inclusion (DEI) focus on library materials delivery that places smaller libraries on a level playing field with their larger peers through functional five-day delivery; to SHARE's focus on DEI throughout the service; to grant support for member access to HRSOURCE membership; to collaboration with our Illinois and national peers for maximum program reach.
- Project management and process improvement throughout our organization to make the best use of tax-payer support through succession planning at the staff level and a new several-year strategic plan initiated by the Board of Directors.
- Resources focused on advocacy, professional development, and networking support for our multi-type membership.

## A. Administration

Illinois Heartland Library System (IHLS) celebrates its decade of service to libraries in central and southern Illinois and looks to a future of continued collaboration and partnership in the library space. Centralized administrative services allow us to provide cost-effective and innovative solutions to member needs. The focus of our administrative team members in FY2024 includes:

- Member communication focused on advocacy and organization-wide consulting support for member libraries, as well as continued research on the benefits of an Automated Material Handling System (AMHS).
- Support for the IHLS Board of Directors through training and marketing of board membership.
- Accurate financial forecasting, strident adherence to accounting principles, and continued utilization of the OpenGov database for enhanced reporting and transparency.
- Promotion of broadband initiatives, expanded utilization of Customer Relationship Management (CRM) database, and support of electronic communication with Microsoft Teams
- Staff development and understanding of how employee efforts connect or align with the organization's purpose through the quarterly evaluation process, planned employee development training to enhance a culture of learning, and cultivating the employer-employee relationship

Sharing Heartland's Available Resources Equally (SHARE) will continue working on established goals while adding substance to the original resource sharing plan of service:

- Highlight the focus on full participation in resource sharing as outlined in the Illinois Administrative Code.
- Utilize a variety of tools for communications and training to ensure libraries are familiar with the ILLINET Interlibrary Loan (ILL) Code.
- Develop the SHARE program, promoting membership advantages in the largest library automation consortium in North America, while exploring alternative funding opportunities that would help offset participation costs.
- Respond to SHARE member suggestions with a thoughtful review of existing policies and procedures.
- Provide opportunities for increased member engagement in a multitype library environment.
- Remain alert to opportunities for improvement that might present themselves during the fiscal year.
- Continue to research and review e-resources that would be beneficial to SHARE and IHLS members.
- Explore ways to promote Equity, Diversity, and Inclusion (DEI) initiatives in the SHARE program.

# Please provide your feedback for the FY2024 IHLS Operational Plan and Budget(s)

## 3 registered statements

The budget again this year has an approximate deficit of 1.5 million dollars. There are many areas in which the budget should be decreased in order to offset this huge deficit. There are more positions being requested to be added in the budget. The organization has not taken away any positions. SHAREs budget has risen by \$50,000. Yet at this point libraries are not being offered ASPEN to all members without a fee, thus limiting the amount of libraries that will be able to afford the service.

The operational plan has included more items this year to benefit members but many of the plans are internal and do not appear to benefit members. Members need to be included in creating this plan, so it is member driven.

### Message from IHLS Open Town Hall Admin

Thank you for reviewing the FY2024 Draft Budget and Operational Plan. While some of the budgets are in a deficit, these budgeted amounts are intended to be "no more than" amounts, meaning that the budgeted amounts are the highest anticipated amount of the expenditures. This is visible in the Historical Budget vs. Actual memo presented to IHLS Board of Directors at their April 2023 meeting, that IHLS has historically ended well under the budgeted Total Revenue Over (Under) Expenditures. This has been the case even as, throughout its existence, IHLS has not received full funding based on the Illinois statute for System Area and Per Capita funding.

Still, while we acknowledge that a negative budget is not ideal, we must also recognize that it is important to ensure that IHLS can provide all the necessary services to our member libraries and the communities they serve. For this reason, two additional IHLS staff positions were included in the FY2024 budget to begin in the second half of FY2024. Both positions have been added because of the support they will offer to our members. One is a data analyst to aid IHLS and our members to better advocate for additional financial support and demonstrate an agency's relevance in their respective communities. The second position is an IT programmer assistant to support our current web developer on projects such as the IHLS delivery iPad app and websites. These new positions will significantly enhance our ability to provide excellent service to our members.

Moreover, the proposed budget was created with the knowledge that both the SHARE and General Fund have fund balances to absorb these deficits at this time. The Capital Projects Fund and the SHARE Reserve Fund budgets make up \$900,969 of the \$1.5M deficit you referenced. These budgets contain fund balances that have been accumulating over a decade for the purpose of the expenses that are included in the budget. Many of our member libraries also reserve funds for a specific purpose to be utilized at a later time. Unfortunately, budgets are presented as future revenues and expenditures only and are unable to demonstrate an accumulated fund balance that these currently have. As a result, the proposed budget seems to show a deficit that our funds themselves will not reflect.

In FY2024 we propose an increase of \$50,000 to the IHLS General Fund contribution to SHARE. This is consistent with approximately 9% of the total SAPG allocation. This contributes to SHARE's annual revenues and the utilization of the funds is determined by an active and involved SHARE Governance structure responsible to the SHARE membership. Governance is currently evaluating fee structures for the implementation of the Aspen discovery layer.

The IHLS Operational Plan is arranged according to grant guidelines supplied by the Illinois State Library. We also include reference to specific portions of ILAC 3030.215 (Standards for Core Services to Members) in the Operational Plan. IL 3030.215a) states a library system "shall develop an annual operational plan with input from members that addresses specified standards for core services", and "ensure that all system members have opportunities for input into or to comment on planning and evaluation activities, such as system plans of service, plans of cooperation, long-range plans, and program designs, including budgetary information, before plans are finally adopted." IHLS posts its draft budgets and operation in late April each year following the board meeting. We share input with several committees and the board in May the Budget and Operational Plan are finalized and adopted at the IHLS May board meeting.

Some of the points that were addressed that I really liked were: communication with member libraries; providing HR support, addressing frontline questions about nonresident law; DNS support; metadata training; creating a mobile memory lab; and creating a mobile Library of Things for libraries to borrow. As the director of a small public library with no website, I'd also love information on things to consider concerning obtaining a website and how that process works.

In the Operational Plan, under Delivery Services, Quantify the impact of the delivery service, planned activities include "Purchase vehicles as they become available to replace vehicles IHLS has considered surplus" - do you no longer contract with Enterprise for vehicles?

Under Resource Sharing > SHARE, it states, "Maintain a certification program for member library staff, to provide a high level of database accuracy and library efficiency" - what is this? It also states, "Promote equity among members, by evaluating SHARE policies, procedures, and decision-making processes to make sure that they are fair; support equity initiatives of members, especially for those that are addressing underserved and marginalized communities" I hope that this includes not holding larger libraries back and allowing options for all sizes of libraries.

Under Membership > Continuing Education, might there be a way to ensure an opportunity for libraries across the state to benefit from the CE offered by both multi- type library systems? Can IHLS members attend RAILS CE that is currently limited to RAILS members only and vice-versa?

> Grants, might there be an opportunity for members to contact the grants staff for research regarding grants for specific needs?

### **Message from IHLS Open Town Hall Admin**

Thank you for reviewing our draft FY2024 budget and operational plan. We appreciate the opportunity to provide more detail regarding our member services.

Effective FY2023 IHLS no longer contracts with Enterprise for new vehicles and is purchasing vehicles off the state contract when available.

This is part of a larger EDIA effort that have broad implications for both patrons and member libraries. We are very aware of the current climate where libraries have become an increased target for those seeking to deny individuals the right to high-quality information, so we have updated collection development policies so that they are clear and transparent, with specific procedures in place. We are also utilizing available tools to review and maintain the diversity of our digital collections, with an emphasis on representation. We also support member libraries that want to do more in this space, so that Illinois libraries are for everyone in our communities.

That also means that our fee scales are transparent and fair. We are proud that we can make high-quality technology accessible for every library in southern and central Illinois, promoting equity of access in all communities, no matter their library's population size or annual budget. We strive to make our committee volunteers representative of our membership and our governance has been set up so that each library agency has an equal say on member policies.

Our SHARE committee volunteers work very hard to make sure that we meet the needs of all our members, from the smallest, rural library to the larger, more urban systems. This specifically means that we try to offer core services, like the Polaris integrated library system, the cloudLibrary digital collection, and the SHARE Mobile Library App at a price point that is equitable for everyone, using economies of scale and the collective bargaining power of our group.

For those libraries that want additional tools, we also support other types of services that would be of value to our members, but not necessarily a need for everyone, like McNaughton Book Leasing for SHARE, Stack Maps, and Patron Point. We also strive to stay abreast of new innovations in the library marketplace and offer technical support for any third-party integrations that our members want and need.

IHLS is excited to be working with a CE coordinator and conversations regarding collaboration between the systems might well be in the equation as we move forward.

Individual library grants consulting is not currently part of the contract with the independent grant consultant.
