Edwardsville Building Update

For information only – Leslie Bednar shared that an air quality test was performed on the first and second floor. The results were good, meaning the samples of air contaminants within the building were lower than the outdoor air control sample. IHLS will complete a full air quality assessment prior to staff returning to the building in July. The carpet order is delayed, and we are waiting on new samples to arrive. The furniture order is in and is at Color Art's warehouse. The shelving units for the delivery area have been painted.
