

## FY2023 Operational Plan

---

The Illinois Heartland Library System (IHLS) is guided by our operational plan which as a primary component of the annual System Area and Per capita Grant (SAPG). We begin the draft each January by evaluating progress on the current year's plan. This review informs our work the second half of the fiscal year and helps us determine which projects and goals will carry forward to the new fiscal year.

In our second decade we took a different approach to planning that expands the development period of the operational plan. It also grows the pool of possible projects by working across our staff and bringing together colleagues who interact with member libraries in different capacities. Utilizing the creativity and experience of our talented and capable staff, we identified several new projects/services we will evaluate more fully in FY2023. All are based on our understanding of member needs, staff expertise, and knowledge of future trends:

- Train librarians to become leaders in community outreach and engagement: libraries are central agencies in their communities, and we want to give our members the tools to be successful in that endeavor
- Create an outreach/community engagement department or committee: how can we position our organization to make the most of our member interactions
- Develop we love libraries marketing toolkit: create an online depository of materials our members can use in efforts to seek funding, sponsors, partnerships, and grants
- Mobile library of things: what items do our members need on an occasional basis that we can provide and share
- Mobile memory lab: a one-stop digitization service for members of the community to capture local history and preserve family memories

## A. Administration

Illinois Heartland Library System (IHLS) celebrates its decade of service to libraries in central and southern Illinois and looks to a future of continued collaboration and partnership in the library space. Centralized administrative services allow us to provide cost effective and innovative solutions to member needs. The focus of our administrative team members in FY2023 includes:

- Member communication focused on advocacy for member libraries, equity, diversity and inclusion initiatives, and organization-wide consulting support for member libraries
- Support for IHLS Board of Directors through training and marketing of board membership
- Accurate financial forecasting, strident adherence to accounting principles, and continued utilization of OpenGov database for enhanced reporting and transparency
- Further development and expansion of new IHLS website, expanded utilization of Customer Relationship Management database, and support of electronic communication with Zoom and Teams.
- Staff development and understanding of how employee efforts connect or align with the organization’s purpose through improved annual evaluation process, planned employee development trainings to enhance a culture of learning, and cultivating the employer-employee relationship.

## C. Delivery

Delivery has come a long way since the formation of IHLS 10 years ago. The Operational Plan serves as a guide to where delivery is going in its constant quest to provide the best, most efficient ways of service to our member libraries.

Delivery still takes seriously those ideas from the Statewide Delivery Committee. As we move forward into FY2023, they are still the basis for many of our goals. When paired with our member libraries' needs, these provide a solid roadmap.

The focus of delivery in many ways will remain the same:

- Ongoing compliance with the recommendations of the Illinois Statewide Delivery Committee.
- Continued access to five-day a week delivery model.
- Provide accurate and consistent delivery to member libraries.
- Provide accurate sorting of library materials.
- Standard training for delivery staff across all hubs.

Delivery will continue to explore technology and the benefits it provides for the department. From enhanced data collection to the ability to notify drivers remotely about changes, we utilize an in-house developed app to analyze delivery information.

Another technology piece that is being investigated, is the Automatic Material Handler (AMH) or as it is referred to often, the sorting machine. It is anticipated that this machine would not only benefit IHLS in savings, but our SHARE member libraries as well will realize a savings.

Additional actions will include:

- Remain on the American Library Association (ALA) Reference and User Services Association (RUSA) Physical Delivery Group to be able to jump start new ideas from participants who do delivery in different ways.
- Utilize the Delivery Working Group (DWG), which is made up of member libraries and IHLS staff, as a resource for potential feedback for delivery on potential projects.

- Develop the SHARE program, promoting membership advantages in the largest library automation consortium in North America, while exploring alternative funding opportunities that would help offset participation costs.
- Respond to SHARE member suggestions with a thoughtful review of existing policies and procedures.
- Provide opportunities for increased member engagement in a multitype library environment.
- Remain alert to opportunities for improvement that might present themselves during the fiscal year.

## E. Membership

The primary focus of this section of the annual grant application must always be on efficient and effective ways IHLS can reach out to membership and provide support to them.

In FY2023, Membership Services hopes to build on the work done in FY2022 and provide:

- Continued work with any member library on compliance issues as they relate to those stated in the Administrative Code.
- Expand support for, and connections among, our school library membership.
- Training for public library trustees in a variety of modalities to determine the most effective methods of reaching that group of stakeholders.
- Mentoring for new public library directors.
- A continuing education program rolled out in a biannual manner.
- Increased networking opportunities for libraries of all types.
- Ongoing efforts to identify, offer, and promote professional development opportunities for all members

The budget deficit is rather large, but I see that you have the cash flow to support these expenditures. I assume that in future years the budget will not remain as negative because you cannot spend money that you do not have. I am interested to learn more about the AMH when the information is available to us. IHLS has always looked for innovative ways to support us members. The consulting program that you will be starting would be good for us. I also like the library trustee program, that would be very beneficial to my board. Have you gathered information on what other organizations are budgeting for the salary increases for staff? Does the Illinois State Library plan to increase your funding or what measures can be taken with increasing costs? I have heard before that RAILS receives much more funding than IHLS, why are the amounts so different?

**Message from IHLS Open Town Hall Admin**

Thank you for taking the time to review our data and provide your input. Your concerns are valid and we would like to provide a brief explanation.

IHLS will never plan to spend more money than we have. Based on an article published by HR Source on March 29, 2022, survey reports the average pay increase for non-exempt employees is at 4.63% and exempt employee increases are averaging 4.38%. RAILS is considering a 5.9% increase based on their FY2023 Operational Plan board document. The Secretary of State's FY2023 budget included an increase of over \$2.8 million to the three library systems. From that approved budget request, IHLS received an increase of \$519,300 in the System Area & Per Capita Grant. Currently, IHLS is funded below statutory funding. Our hope is that library systems will be fully funded in the future years. We have budgeted for a grants contractor to assist in finding alternative revenue sources for the support of future projects. The library systems are mainly supported by the System Area & Per Capita grant. Even though IHLS does cover a slightly higher service area, RAILS has a much larger population. Also, with the results of the census, IHLS population recorded a decline while RAILS recorded an increase. Thus, resulting in RAILS receiving approximately three times more System Area & Per Capita Grant revenue than IHLS.

I read the part where ongoing work is being done on the building at Edwardsville. Is this necessary? Aren't the majority of employees still working from home?

I would think it should be a priority only if the remodeling is to get the staff back to the building . Also if the re-modeling would be for in-house continuing education workshops for library staff on budget, policies, by-laws, new requirements on IPLAR and Per Capita Grants and in-person professionals such as Phil Lenzini that have so much information that is helpful to current and new library directors.

Thank you for taking the time to review our data and provide your input. Your concerns are valid and we would like to provide a brief explanation.

IHLS staff fully returned to the office in 2021. As is was prior to COVID, there are some staff members that are able to work remote a certain number of hours per week based on their job description. The Edwardsville building has not been updated since 1994 and the building is in need of some repairs and updates. IHLS started the remodeling process in FY2021 and we have a remainder of the upstairs to complete along with a small training room on the first floor. We need to make accommodations for our growing number of staff that are now located in the Edwardsville location and we will have another meeting room space on the second floor. Unfortunately, we will no longer be able to accommodate large groups for training sessions at the Edwardsville location but if we have a large in person group session, we plan to rent a space that will accommodate the group size. We will continue to offer trainings virtually on a variety of topics and we truly appreciate the list of workshops that you have provided. It is very beneficial to know what are libraries are needing. In FY2023 we will be conducting our triennial all-member survey. Please take the time to complete this survey, as these are great suggestions for training topics! The training topics are developed based on member input from this survey.

I am concerned at the deficit budget, and the hiring of additional staff. Should IHLS be taking on new staff without the means of support for that position long-term? Deficit budgets are not the standard and I worry about the outcome, especially with the Illinois elections this year.

**Message from IHLS Open Town Hall Admin**

Thank you for taking the time to review our data and provide your input. Your concerns are valid and we would like to provide a brief explanation.

The new positions that are in the General fund are a Membership Coordinator for a partial year and a Project Coordinator that is allocated 25% to the General fund and 75% to the Trustee Training Grant. The Membership Coordinator is budgeted to start in January 2023, this is to enhance member services with a focus on Continuing Education. This is an area that IHLS has identified that needs additional staff for the development of these services for our members. The Project Coordinator is mainly supported by the Trustee Training Grant. This position will be determined by the length of this grant and the need for this position. With the importance of this training grant, the Project Coordinator will allow for the full development of this project in ample time. This position will also assist in the organization of General fund projects. For the SHARE budget, the Administrative Assistant will provide much needed support for all SHARE management staff. This position will alleviate administrative tasks from management personnel that will allow them to focus on high level projects that will support SHARE members.

While some of the budgets are in a deficit, these budgeted amounts are intended to be "no more than" amounts and IHLS has historically ended well under the budgeted Total Revenue Over (Under) Expenditures. Please see the Historical Budget vs. Actual memo presented to IHLS Board of Directors at their April meeting.

<https://www.illinoisheartland.org/sites/default/files/meetings/other/14.3%20Historical%20Budget%20vs.%20Actual.pdf>

Since existence, IHLS has not received full funding based on the Illinois statue of Area and Per Capita funding. While a negative budget is not ideal, it is important to ensure that IHLS can provide all the necessary services to our members libraries and the communities they serve. Both SHARE and General fund have fund balances to absorb these deficits at this time.

I understand that an automated system at IHLS would save IHLS money, but it would cost individual member libraries a lot in terms of products (new barcodes for everything) and time (personnel to re-barcode everything.) Perhaps IHLS could explore a way that the barcode could be printed on the slips that are currently being placed on the front of the books? I would think that a change in the systemwide software would be a far less expensive option for member libraries and still be compatible with an automated system. However, I am not skilled or knowledgeable enough to know if that is possible. Just a thought.

**Message from IHLS Open Town Hall Admin**

Thank you for taking the time to review our data and provide your input. You are correct that it is very important to consider the member impact with an AMH system. Next fiscal year we will begin a full analysis (for IHLS and the member libraries) of the AMH system with the information we have received from the Request for Information from AMH vendors. IHLS is aware of the impact on member libraries and will take that into consideration in the decision before moving forward on this project. Once the full analysis of AMH has been completed, the results will be posted

for member comment prior to a decision being made. IHLS plans to look for grant funding for the purchase of the AMH system along with member support for barcodes and/or RFID tags. IHLS realizes this is a pivotal moment in library technology and we are focused on technology improvements that benefit our member libraries.

I am a little confused by why IHLS needs a four person accounting department. It doesn't indicate which of them are full-time, but that seems like an awful lot of people to handle the finances of an organization this size. The IT department also seems a little oversized for the size of the organization, but since SHARE's primary product is software, that at least seems somewhat justified.

The service which seems underfunded relative to its importance is Consulting to libraries. In particular, it would be very valuable for IHLS to hire a HR professional which can provide training, but especially situational advice and assistance, to member libraries. We have hundreds of libraries and no more than a handful have anything like an HR professional, and most cannot even afford to belong to an organization such as Employers Association. This is a great need I would like to see considered in future budgets.

Perhaps there would be value in hiring an outside consultant to review job descriptions and how much work is actually being done by each position. Especially since staff started working at home, it seems like we have persons performing very few duties. Is there accountability? There are staff at IHLS who can always be seen actively supporting libraries (Anna Yackles is a good example) and there are others from whom are almost never seen nor heard. (Sadly, Ms. Bednard is on this list.)

I would like to see more accountability and honestly, more value given to libraries, from a budget this size.

## Message from IHLS Open Town Hall Admin

Thank you for taking the time to review our data and provide your input. Your concerns are valid and we would like to provide a brief explanation.

Our Accounting Department has 4 staff members and this is equivalent to 3.8 full-time equivalent (FTE). Of this number, 1.75 FTE do the work and are financially supported by the OCLC Billing Grant, which is the OCLC Fund on our organizational budget narrative. We are the fiscal agent for the statewide billing of OCLC services for the Illinois State Library, which includes libraries throughout all of Illinois. This grant manages approximately 5 million in revenues and expenditures each year. The other 2.05 FTE in Accounting are financially supported by the General Fund. They manage the SHARE and IHLS billings and collections, accounts payable for General fund, CMC fund, OCLC fund, SWAYS fund, Capital Projects fund, and SHARE fund, the in-house payroll processing for all funds (roughly 100 employees), tax filings, grant reporting, management of IHLS annual audit, and many additional duties beyond listed here. The IT Department consists of 4 FTE; 2 FTE for General fund and 2 FTE for SHARE. IT provides internal support for the organization as well as for all IHLS and SHARE member libraries.

We could not agree more that consulting and continuing education for member libraries is an area that needs development. IHLS has been focusing on the development of our Membership department and the fulfillment of member needs are expanding with the recent addition of a school liaison focused on school library needs and concerns, and a future addition of a Membership Coordinator with continuing education focus in FY2023. Additional details on the FY2023 Membership planned activities can be found on page 18 in the operational plan. Our HR Department (along with other departments such as IT and Marketing/Communications) plan to initiate consulting hours for member libraries to schedule a time to meet one-on-one to discuss specific issues. IHLS offers webinars annually related to staff development of a variety of HR topics. Please see this link on our website for information for the current series <https://www.illinoisheartland.org/ce/hr-webinars> (<https://www.illinoisheartland.org/ce/hr-webinars>). Additional details on the FY2023 Human Resources planned activities can be found on page 6 in the operational plan. Please note that we cannot advise on specific situations when pertaining to HR laws due to the legality, but we can provide resources for guidance.

We can assure you that all staff at IHLS work diligently to serve member libraries. Each staff member has a different role that they serve within the organization. Some staff are externally facing and some staff are internally facing. While the presence of every staff member is different at every level, all staff have the best interest of members in mind while completing their tasks and our focus is on IHLS member libraries no matter what our role is within the organization.

We value accountability and honesty within our organization. Please feel free to contact us if this response has not addressed your concerns.

Thank you for the opportunity to examine and give feedback. As a member library, we have 2 areas of concern in the FY2023 budget proposal.

The AMH (automatic material handler) would save IHLS money in the long run, but it would come at the cost of the member libraries. This would require member libraries to operationally change our current barcode systems, and likely would mean a continued replacement of the entire collections barcodes. This route should only be considered if the AMH system would not require any significant change to how member libraries are applying barcodes, and after considerable input from any member libraries who would be affected.

(Context: as a member library, I do not know which of these projects are necessary and emergent. If all of these projects are imperative, please ignore this feedback.) It is worrisome to see such negative balances. Libraries around the state are struggling, and such drastic increases to spending sends a mixed message. Considering current material costs, labor costs, and the continued uncertainty of the supply chain, it may be worthwhile to examine pushing some of these projects back, instead of trying to fit them all into the same fiscal year.

IHLS prioritizes projects prior to placing them in the budget and executing them. All the items budgeted this year are items that need to be accomplished. Completing these projects now will further delay the inevitable need of upgrades and replacements and will allow us to forecast more accurately for future years. We have an adequate General Fund & Capital Projects fund cash balance to complete these projects that are budgeted. As a result of multiple years of unspent funds in the General fund, it has allowed IHLS to build a reserve amount in the General & Capital Projects fund to absorb these deficits.

Although the budget will be projected to end in a deficit, I feel that the staff and administration has worked diligently to review expenses and revenues. Have ideas of future savings and/or revenue offers. Lean times have always been around for systems and this post-Covid environment has placed some hurdles to the systems funding. The system will manage the rocky road ahead and I am sure come out stronger.
